## **Introduction**

The following pages list data for all known family members as of August 25, 2017.

Each immediate family is presented in their own section that contains a graphical family tree as well as a description with information about each referenced person and their children. The child section provides information about the children of the preceding couple. When a child has offspring of their own this is presented in a separate family section for that child. In this case a '+' is used to denote that an individual will appear later in the book as a parent with his/her own children and there is a link to the appropriate family reference number. For children with partners but no offspring the partner data is given with the reference family. Roman numerals, followed by a period, are used to indicate the birth order.

In the chapter titled "Family of the Starting Person" the ancestors of Lawrence Southwick and Cassandra Burnell are presented in a kind of enhanced Pedigree Chart which displays the graphic representation of their direct-line ancestors and the children of the couple. This chapter contains information about the couple whose offspring are listed in the later chapters.

The chapter titled "Families of his Descendants" provides details (as known as of the publication date) for the offspring of Lawrence Southwick and Cassandra Burnell. There is a chapter for each generation. Relatives are listed in the order of the nearness of their relationship.

Sources for the information provided are given in the footnotes.

This document reports the details of 230 individuals, of whom 113 are male and 117 are female. Of the 124 individuals with recorded birth and death dates, the average lifespan was 62.17 years. Of these, 63 males averaged 64.46 years, and 61 females averaged 59.8 years. The longest living male was Carlos Batchelor (ca.1915–2012), who died aged 97. The longest living female was Clara Buffam (1873–1987), who died aged 114.
